SKILLS

JavaScript, React, Redux, HTML, CSS, Node.js, Express.js, MongoDB, RESTful APIs, Git

PROFILE

I am a detail-oriented Frontend Developer known for my creative problem-solving skills and a keen eye for design. With a Bachelor's degree in Computer Science from the University of Toronto and years of experience in full stack development at Toronto Raptors and Coinbase, I have a solid foundation in both frontend and backend technologies. I am committed to creating intuitive and dynamic user experiences. My ability to communicate effectively and work within team environments complements my technical expertise in the fast-paced world of web development.
